— Wealth from Waste —

No.1(115)01/51/17
January 2, 2017

Dear Colleagues,

WISH YOU ALL A VERY HAPPY & PROSPEROUS NEW YEAR

During December '16, FSNL could handle 6,78,867 M.T. of Slag. A quantity of 2,23,772 M.T. of Scrap was recovered & processed. However, we are behind the MOU target in scrap (High value) recovery & processing by 4,82,460 M.T. causing less revenue generation by Rs.35.30 crores. Units to put all efforts to meet the "High Value" target in the next three months.

I am pleased to inform you that FSNL was recently felicitated by Quality Circle Forum of India (QCFI) at the recently held National Convention on Quality Concepts at Raipur from 16/12/16 to 19/12/16, for its valuable contribution and support to QCFI, by way of presenting a Plaque to the undersigned by the Chief Minister of Chhattisgarh. Also, FSNL's Quality Circle team "AKASH" which had participated in that National Convention received "Distinguished Award" for their case study presentation.

I thank all the representatives of the Unions for their positive contribution towards amicable settlement of the wage agreement for non-executive employees for the period 1.1.2012 to 31.12.2016, in the Joint Forum Committee meeting held on 19th December 2016.

Discontinuation of SMS-I operation in BSL, Bokaro has reduced our job at Bokaro and two processing sites have been closed. On Commissioning of SMS-3 at BSP, Bhilai, there will be possibility of discontinuation of SMS-1. Hence, metallic scrap (High value) arising at Bokaro & Bhilai will reduce, hence reduction in revenue.

I am sure FSNL collective will put their best efforts to enhance production, productivity & revenue to meet the expenses of wage revision and less revenue generation due to low "High Value" item recovery & processing, so that our company will continue to be in profits.

FSNL is making its best efforts in pursuing their customer steel plants in realizing the outstanding payments.

With best wishes,

Sd/-
