— Wealth from Waste —

No.1(115)01/781/17
February 3, 2017

Dear Colleagues,

During January '17, FSNL could recover and process 2,46,676 M.T. of Scrap which is the best 'January' since inception of FSNL, surpassing the previous best achieved in January '16. A quantity of 6,62,334 M.T. of Slag was handled. However, we are behind the MOU target in recovery & processing of Scrap (High value items) by 4,99,573 M.T. causing less revenue generation by Rs. 22.15 crores. Units to put all out efforts to meet the "High Value" target in the next two months to make up the low revenue generation, so that our company will continue to be in profits.

I am very pleased to inform you that first "Coil Rewinding Machine" has been designed, developed and fabricated in-house at Corporate Office, Bhilai and the same has been dispatched to Vizag Unit for commissioning. Simultaneously, more Coil Rewinding Machines are being developed and fabricated for commissioning in Rourkela, Bumpur & Durgapur Units. These Coil Rewinding Machines will help in minimizing cost and time of repair and will also improve in productivity/revenue of the Company.

Once again all the employees are requested to actively participate in sharing their ideas, which will help the Company to enhance the productivity and revenue.

You will be glad to know that under the auspices of Ministry of Steel, FSNL successfully organized "Rashtriya Rajbhasha Sangoshti" at Bhilai on 12th Jan. 2017 on the theme "Role of Hindi language in enhancing Indian Culture", which was attended by officials of Ministry of Steel and participants from various member institutions of local 'Town Official Language Implementation Committee (TOLIC)', Bhilai. Dr. Vikas Dave, Member of Ministry of Steel's Hindi Salahakar Samiti also graced the occasion.

The situation in the area of cash crunch of FSNL still prevails, which is a matter of concern.

With best wishes,

Sd/-
