No.1(115)01/6578 /16
October 1, 2016

Dear Colleagues,

During September '16, FSNL could handle 6,38,723 M.T. of Slag. A quantity of 1,90,731 M.T. of Scrap was recovered & processed. In Scrap category we are behind the target. Let us put all our efforts to meet the target in all the categories, in the coming months.

I would like to share a good news with all my colleagues that after sustained interaction with SAIL-Bhilai Steel Plant, FSNL has been awarded the job of "Recovery of Iron Scrap from Blast Furnace Slag Dump", for a period of three years. I sincerely feel this is the result of the confidence our customers are having on FSNL.

I am very glad to inform you that a Quality Circle team comprising of 6 employees of FSNL-Bhilai Unit has bagged 'Gold Award' for their presentation of Case Study titled "Developing a solution to frequent breakdown in Crawler Crane Swing and Travelling system of TATA TFC 280" in the Chapter Convention of Quality Circle Forum of India, held at Raipur on 24/25th Sept.'16. With this FSNL team has qualified for participating at the national level. This is a great moment for FSNL collective.

I request our employees of all the units to keep a record of any efforts made by them in the area of development of methods & systems which culminates in improvement in production / productivity or reduction in the cost & equipment downtime. This documentation will help our other units also to compete in Quality Circle events. These activities will enhance the image and brand value of the company.

The situation in the area of cash crunch has become severe, which is affecting our fund transfer to Units.

With best wishes,

Sd/-
(Rajib Bhattacharya)
